Ranch — Side Dipper (1.5 oz)	39 g	200	20	3	150	3	1	\$0.50–0.75	Egg, Dairy

Notes & Sourcing

• **Nutrition data:** Sourced from Dave's Hot Chicken's official nutrition chart at store.daveshotchicken.com/nutrition-information/ (chart revised 3/12/2026). Values are per standard recipe; customizations, substitutions, or a different local supplier can change actual numbers.

• **Prices marked with *:** These are approximate, commonly reported U.S. prices gathered from public price-tracking sites, **not** figures published on Dave's official website — Dave's does not post a fixed national price list; actual prices are shown only inside the ordering flow (site/app/in-store) and vary by location and market.

• **Allergens:** Dave's confirms that its kitchens use shared fryers and prep surfaces for all chicken, cauliflower ('Not Chicken'), and fried side items, so cross-contact with wheat/gluten, egg, dairy, soy, and sesame is possible across the entire fried menu, even on items where an allergen isn't a direct ingredient. Dave's does not offer a certified gluten-free, dairy-free, or nut-free menu. For a confirmed, item-by-item allergen matrix, check the Dave's Hot Chicken app or ask staff at your specific location before ordering.
